

*Did you know that skin cancer  
is the most common cancer in the United States?*

— JULY IS —  
**UV SAFETY**  
— AWARENESS MONTH —

*This summer  
it is important to  
follow the CDC's tips to  
protect your skin from the  
sun's harmful UV rays!*

[CLICK HERE](#)  
*to learn how!*

Most skin cancers are caused by UV light exposure and according to Weill Cornell Medicine, just five sunburns can double your risk of developing melanoma.
