## REMAC Squad Albuterol Agreement

The practice of administering Albuterol via Nebulizer to patients in respiratory distress in the pre-hospital setting is a privilege granted to EMT's by the Regional Medical Director through the North Country Emergency Medical Services Program Agency (NCEMSPA).

Our agency agrees to follow all NYS BLS and North Country REMAC protocols and Policies regarding the administration of nebulized albuterol.

To maintain that privilege, we agree to comply with and remain in good standing while practicing within the system.

**By signing below, we:**

- 1. Acknowledge that we have received the current NCREMAC protocols and policy statements.**
- 2. Agree to abide by the protocols and policies of the North Country REMAC Medical Services System.**
